

bendover.txt

Bend Over

Bend over and take it like a man

Your prayers, you can shove them up your ass

Gripping steel and wishing that this never happened

Wondering is this happening cause you drank

Or cause you missed mass

He fears man and men like his dad

Here his voice it's strong and it's mad

So bend over and take it like a man

So bend over and take it like you can

When you were younger you were respected by peers

You don't look so respectful after a couple of beers

Don't give up the fight

You're right it might seem like

The world has got you tight
