It's About That Time
Hey, have you discovered pain
When you look at yourself do you want to change

I said hey
I'm leaving

I said yeah
It's about that

It's about that time

Does it upset you, does it make you want to change
And does it seem like there's no other way
And when your down, and there's no one there to pick you up
Do you run or do you hide
